Despite the fact that my arrogant opposition insist I "prove my allegations" and still refuse to pick the
 so I can; I know - what a drag - I, have other things I could be spending my time doing, too; so indeed their game
 playing is most unappreciated from me as well; I mean really - I'll pursue them to the gates of Hell to see justice finally
 prevail since it won't in this Commie State with the likes of Munley on the bench. Therefore I ask this court to su
 pene the following documents listed below: the copy of the grievance I filed in '99 about this assault and has no
 doubt been altered or destroyed by SCI-Rockview, also Rockview's rubbished - supply of PRC interviews with me
 from Feb '99 - April '00. I know - they tried to be slick and cover their criminal conspiracy intent and
 practices by writing dumb shit like "Barr mumbled something" - but they want me to "prove my allegations"
 so I shan't fail! Also I need my medical records from SCI-P subpoenaed, especially the ones pertaining
 Rockview's most bogus claim that I suffered "a hairline fracture" - I don't need X-rays or medical expertise
 know the pain I feel is from more than "a hairline fracture" but let's humor the chump and the jury of their
 peers - shall we!!! Also the security office at SCI-P has a letter on file claiming my April 24, 00 writeup here was
first state wide drug offense. Again - gotta humor the jurors... Rockview's lies are bound to make 'em side!!!! Finally
 4/7/01 I was given a job again at SCI-P. But it's obvious to all any attempt to lift more than 10 lbs (1/20 my body
 weight) cause great pain to my already busted and forever damaged ribs. Damn shame it is too... they tell me
 "prove my allegations" and come up with a co-conspiring "judge" in Munley who wouldn't let me, well
 I said I'll pursue my assailants to the gates of Hell to finally have Justice prevail. I gave them every thing they wanted
 home court advantage (a corrupt courtroom), a nepotistic relative of a "judge", even their pick of the jury. I think having
 the evidence I am requesting will no doubt "prove my allegations" to a jury of Steve Wonders' peers... anyone can see I
 assaulted and conspired against!!!! This plaintiff feels this motion provides enough evidence of its content and means

to clearly fall under CR 7.5 (a) therefore no brief will follow unless directed by the courts, I just
the day finally comes when this assaulted plaintiff can "prove his allegations" because my assailant and the
co-defendants are not getting away with this, Lord knows they've certainly tried or they'd have picked the towel
how about it, Munley?
